PROFILE

UI/UX & Graphic Designer and Full-Stack Developer with hands-on experience in creating intuitive web and mobile interfaces. Proficient in Figma, Adobe Suite, and front-end technologies, with a strong eye for typography, color theory, and visual hierarchy. Skilled in building responsive designs, dashboards, and marketing visuals, collaborating with teams, and delivering user-centered solutions.

SKILLS

Design & UX

- Figma, Adobe Photoshop, Illustrator, Canva, Responsive Design, Wireframing, Prototyping, Visual Hierarchy, Color Theory, Typography, Dashboard Design, Digital Campaigns

Frontend Development

- HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), TypeScript, React.js

Backend Development

- Node.js, Express.js, Laravel (PHP), RESTful APIs, JWT Authentication

Backend Development

- Database & Tools: SQL, MongoDB, Git/GitHub, Postman, Swagger

Professional Skills

- Critical Thinking, Problem Solving, Team Collaboration, Time Management, Task Prioritization, Agile Workflow

EXPERIENCE

Klab Academy **Kigali-Rwanda**
Software Developer Intern *Nov,2025-"Present"*

- Built full-stack web applications using React, TypeScript, Node.js, and Express , Laravel (PHP) with both SQL & MongoDB databases.
- Designed and consumed RESTful APIs , integrating frontend interfaces with backend services.
- Created user interfaces and prototypes in Figma, ensuring responsive, intuitive, and visually appealing designs following modern UI/UX principles.

- Implemented secure authentication and role-based access control using JWT.
- Collaborated with team members using Git/GitHub in an Agile workflow, participating in stand-ups and code reviews.
- Debugged and tested applications using Postman and browser developer tools like swagger.
- Built and documented projects to demonstrate full-stack and design proficiency, emphasizing usability and visual hierarchy.

The Gym **Kigali-Rwanda**
Software Development Trainee *Apr,2025-sept,2025*

- During my time at The Gym, I participated in the Gym preparatory training program(coding in the gap year).
- Designed UI/UX wireframes and prototypes in Figma for web projects during training exercises
- Participated in technical workshops and weekly algorithm challenges to enhance programming and problem-solving skills.
- Collaborated with peers to apply design principles in coding projects, focusing on user-centered design and interface usability.

Premium Events Innovation **Kigali-Rwanda**
Photographer & graphic designer *Nov,2024– Mar,2025*

- Captured and edited high-quality photos for events such as birthdays, and other community events.
- Designed digital content including flyers, posters, and social media graphics using tools like Photoshop and Illustrator.
- Edited short videos and visuals using DaVinci Resolve, premier pro and after effect

Bright family Drama team **Kigali-Rwanda**
Creative Designer *Dec,2021– "Present"*

- Create and schedule engaging posts using original photography, video content, and graphic design, leveraging tools like photoshop , premier pro and Lightroom.
- Analyze social media metrics to adjust strategies and improve overall impact..
- Scheduled posts, written captions, and monitored audience engagement to improve reach and visibility.

EDUCATION

University of lay adventist of kigali **Kigali,Rwanda**
Bachelor of Science in Software Engineering *2025-2028*

- GPA: In progress.
- Status: Currently pursuing degree
- Coursework: Web Development, Databases, Programming, Systems Analysis.

AWARDS AND HONORS (OR ACHIEVEMENTS)

FreeCodeCamp **Remote**

- Responsive Web Design & JavaScript Algorithms & Data Structures.

Alx-Rwanda **kigali, Rwanda**

- AI Career Essentials Certificate & Virtual Assistant Program Certificate.

LANGUAGE

- English
- Kinyarwanda
